

WEDGEWIRE GRATES

INDUSTRY LEADERS

Offering a superior, longer wearing product than many products on the market by design, material selection and construction. Our Heelguard wedgewire grates are designed outlast and outperform the competition.

AUSTRALIAN STANDARDS

Our products undergo rigorous quality checks from start to finish ensuring our products also meet strict Australian Standards and the high-quality standards we pursue in the industry.

STAINLESS STEEL LINEAR WEDGEWIRE GRATES

Once a product limited to industrial applications, stainless steel has become a popular medium in residential construction. Thanks to its strength, scratch and wear resistance, easy maintenance, and aesthetic appeal, stainless steel is the clear choice for industry and savvy homeowners.

Our wedgewire grates offer a visually appealing feature to interior, exterior, commercial and industrial spaces, while enjoying the many benefits of stainless steel. These highly customizable grates add a stylish finish paired with marble, slate and tile, around pools, in bathrooms, kitchens and industrial buildings.
